Here are the results of the Mock Grammar Test. Percentages and results are available for a better understanding of your situation.

Students who received a fail (**F**) mark (below 40%) are invited to reconsider their language choice and must come to my office hours to discuss their situation.

Students who received a narrow fail (**NF**) mark (between 40% and 60%) are requested to improve their language level with further practice and with language courses to be taken at CLA.

Students who received a passing (**P**) mark (above 60%) are asked to consolidate their language level with further practice according to their result.

Students who **passed (P)** the MGT are admitted to the first session of the GT in **January 2024**. Student who **narrow failed (NF)** the MGT will sit their GT in **June 2024**. Students who failed (**F**) the test must come and see me to discuss their situation. A very low mark (under 40%) indicates that a student may well have difficulty passing the GT at the end of the academic year.

N.B. Students who did not provide their student matriculation number (numero di matricola) need to contact me to know their result.
